

## Advanced Botulinum Toxin Type A and Lip Masterclass

### Aim:

To provide an overview on the use of advanced Botulinum Toxin Type A and HA Lip Dermal Fillers for cosmetic uses.

### Objectives:

Name the principal muscles involved in the treatment of the advanced areas of the face and neck using Botulinum Toxin Type A.

Name the layers of the epidermis and describe the therapeutic effects of Dermal Filler, including their limitations when used as a cosmetic treatment.

Define the mode of action of Botulinum Toxin Type A and Dermal Filler, explaining their therapeutic effects including limitations of use and any concerns with toxicology.

Select patients suitable for Botulinum Toxin Type A and Lip Dermal Filler, identifying contra-indications and cautions, side effects and possible adverse reactions.

State any pre-treatment care and recognise the need for consent.

Identify the need for topical or local anaesthesia and demonstrate its safe administration, including how to deliver local anaesthetic for lips.

Demonstrate the safe use of Botulinum Toxin Type A in the brow lift, lower eye lid, nose (bunny lines), cheeks, gummy smiles, lower/upper lip wrinkling, chin, neck, under arm sweating and palm hyperhidrosis, including the correct equipment, dose and injection techniques.

Demonstrate the safe use of Dermal Filler in shaping lips, including the correct equipment, dose and injection techniques using a needle and cannula.

Summarise with appropriate written and verbal aftercare advice to patients who have received Botulinum Toxin Type A and Dermal Filler.

Demonstrate the appropriate use of clinical record taking and recall good practice in relation to handling complaints.

Describe safe storage and disposal methods for products and equipment used.

Explain the insurance requirements to practice these treatments.

### Learning Content:

To train doctors, dentists, hygienists, registered general nurses and paramedics in the administration of Botulinum Toxin Type A and Dermal Filler for advanced areas of the face and neck.
